## Instruction Sheet:

## Steamroller In-Fun-ity Expansion Kit 152019

Store these instructions along with the enclosed maintenance checklist in a safe place. You may also access them on our website.

Take time to familiarize yourself with the use and maintenance of this equipment before using. Please file this Instruction Sheet in an accessible location. The Instruction Sheet must be read and familiar to anyone who is using Southpaw Enterprises Equipment.

**IMPORTANT: Please check equipment immediately for any damage that may have resulted during shipping. If any damage has occurred, please contact Southpaw Enterprises, Inc. immediately.**

### MATERIALS LIST:

1 - Top Section	10 - 3/8-16 Cap Screws
1 - Bottom Section	10 - 3/8" Flat Washers
1 - Connector Section	1 - Instruction Sheet
1 - 7/32" Hex Wrench	1 - Maintenance Checklist

**This kit will enable you to use the Southpaw Steamroller Ramp with your In-FUN-ity Wall Ladder or Climbing System. It can be used if you have the expansion kit by purchasing the right angle kit.**

**WORKING LOAD:** 300 lbs

**ASSEMBLY: Refer to assembly pictures on reverse side .**

- Put a flat washer on each cap screw.
- Slide the ends of the top and bottom sections together as shown in figure 1. Insert a cap screw into each of the three holes from the inside and start them into the threaded inserts on the outside board. Do the same thing on the opposite side. Using the 7/32" hex wrench provided, tighten all screws securely.
- Attach one end of the connector to the top section using two cap screws on each side as shown in figure 3. Tighten all screws securely.
- You can now attach the other end of the connector to your wall ladder using the pre-drilled holes in the wall ladder, or you can attach Right Angle Connectors (#152015) and use it with your existing Expansion Kit.
- Attach the Steamroller Ramp to one of the rungs to get the angle that you prefer as shown in figure 4.

### MAINTENANCE CHECKLIST:

All of the following wear points should be checked on a monthly basis and recorded on the checklist enclosed.

- Check that all screws and bolts are tight. If any screws or bolts are found to be loose, discontinue use until they are tightened.
- Check wood surfaces for cracks and splinters. If cracks are found, discontinue use immediately and contact Southpaw Enterprises. Splinters may be sanded smooth and refinished with clear lacquer.

### MATTING PRECAUTIONS:

- Always use appropriate matting under and around equipment.
- Always wear a safety helmet when using any climbing equipment.

### STORAGE PROCEDURE:

- Make sure that equipment is not accessible by clients without proper supervision.

### CLEANING INSTRUCTIONS:

- Check with your infectious disease department before using these procedures.
- Check for client allergies first.
- Clean with a damp cloth using soap and water or disinfectant.
- Dry before using.
