Instruction Sheet: Ping Pong Insert 303107

Store these instructions along with the enclosed maintenance checklist in a safe place. You may also access them on our website.

Take time to familiarize yourself with the use and maintenance of this equipment before using. Please file this Instruction Sheet in an accessible location. The Instruction Sheet must be read and familiar to anyone who is using Southpaw Enterprises Equipment.

IMPORTANT: Please check equipment immediately for any damage that may have resulted during shipping. If any damage has occurred, please contact Southpaw Enterprises, Inc. immediately.

MATERIALS LIST:

- 1 - Acrylic Tube
- 6 - Ping Pong Balls
- 1 - Pinch Valve

INSTALLATION INSTRUCTIONS :

The Ping Pong Insert is solely intended for use inside of a 6" diameter Bubble Tube. To place the insert in the Bubble Tube, remove the top lid from the Bubble Tube and slide the Ping Pong Insert into the tube with the round acrylic base in first and the end with the screws at the top. THERE IS NO NEED TO DRAIN THE WATER FROM THE TUBE BEFORE PLACING THE INSERT INTO THE BUBBLE TUBE.

Next place the Ping Pong Balls into the Bubble Tube. Hold the Ping Pong Balls under the top level of the water so they fill with water and sink to the bottom. PLEASE NOTE: THE PING PONG INSERT IS INTENDED FOR PING PONG BALLS ONLY. THIS TUBE IS NOT DESIGNED TO BE USED WITH FISH.

In order for the effect to work properly, the water level in the Bubble Tube MUST be at least 3" above the top of the Ping Pong Insert.

The standard air pressure in the Bubble Tube is too strong to create the desired effect. Unscrew the white pinch valve until it comes apart. Take the U-shaped end and slide it over the air hose leading into the base of the Bubble Tube about 5 - 6" back from where the air hose is connected to the brass barb at the base of the Bubble Tube. Place the top part of the pinch valve over the end of the air hose and tighten. Turn on the Bubble Tube and loosen the pinch valve slowly until the Ping Pong Balls are moving in the tube at the desired speed.

Safety Precautions - The safety of your clients is dependent on the appropriate choice of activity to match, yet challenge their physical abilities. Use appropriate spotting / safety techniques. In addition, the layout of your activity area, proper installation and maintenance of your equipment is critical. Southpaw equipment is not intended for recreational or outdoor use. Under no condition should this equipment be used without proper supervision.

This sheet is for example only. It is not meant to, in any way, replace local, county, state, or Federal standards. Be aware - it is your responsibility to find all pertinent safety information that pertains to your facility.
